### **MANAGEMENT DISCUSSION AND ANALYSIS**

(Forming part of Directors' Report)

#### **Industry Structure and Developments:**

The motion picture industry continues to set U.S. and international box office records despite the global recessionary environment. According to the Motion Picture Association of America ("MPAA") worldwide box office grew 8% to a record \$29.9 billion in 2009. Domestic box office outpaced the international segment, growing 10% and exceeding \$10 billion for the first time and is up another 12% in the first quarter of 2010. Moreover, U.S. movie admissions, or tickets sold, grew 6% despite 12% fewer films released during the year. The 3D market was a key growth driver for the U.S. box office. Nearly 11% of 2009 domestic box office, or \$1.1 billion, came from 3D showings. Exhibitors are aggressively converting screens to 3D-capable formats as consumer demand for high-quality 3D content is projected to continue to swell.

#### **Segment wise analysis of the Industry:**

The high cost of production is one of the key reasons why studios are willing to outsource animation work to India. India's advantage is that an animation movie can be made here 15 times cheaper than the cost of a Hollywood production. Overseas markets, already impressed by the country's proven success in the IT industry are increasingly looking at India to cut costs, as studios here offer services at lower rates due to availability of skilled yet cheaper manpower. India also has a strong advantage in getting outsourced work from the West because of the fast growing consumer class and lack of language barrier.

#### **Opportunities:**

(Source: FICCI Report)

The industry is said to have grown over 20% in the past year. Based on the contracts in hand with most animation studios, the industry is expected to grow over 30% in the next five years. In 2009, the state of the animation industry in India, was growing at a CAGR of 30%, is estimated to reach US\$ 1.5 billion by 2011.

#### **Outlook:**

Color Chips (India) Limited is into 2D and 3D Animation and syndication of comics & contents. The Indian animation industry has matured on the technical expertise since last five years. However the industry now needs to focus on creativity and build its own IP content based on indigenous story themes to become more credible in the world market. The Company is working to create a new paradigm in the CGI animation industry with studio quality animation at a fraction of the price.

### **Challenges, Risks and Concerns:**

Animation is a new industry to the Indian Business Environment. Hence, the functioning of the Industry, its risks, the payoffs and the time taken to achieve the payoffs, are not very well understood. The company has been able to develop a strong track record of successful deliveries and has established a strong foundation for a robust growth in the years to come.

Over the years, one distinguishing factor about Color Chips has been the quality of the manpower and low attrition rate, which is much below the industry levels. Particularly, in the 3D animation business, the animators have seen Color Chips as a destination of choice due to training and high quality work opportunities, and a culture best suited for creative talents. This franchise is of utmost importance to this risk reduces progressively with the increase in trained manpower base but nevertheless is an inherent part of the business and needs to be managed actively at all times. Quality computer animation talent is in short supply and also takes time to develop and hence the other major challenges are to successfully increase the talented manpower base of the company.

### **Discussion on Financial Performance with respect to Operational Performance:**

During the year under review the Company has achieved a turnover of Rs.5.41 Crores and Profit after tax of Rs. (25.67 Lakhs).

The earning per share of the Color Chips (India) Limited as on 30-06-2009 is Rs. (0.012/-) (basic & diluted).

The paid-up capital of the Company as on 30-06-2009 is Rs.20,72,42,738/-

### **Human Resources Development and Industrial Relations:**

Color Chips (India) Limited firmly believes that Human Assets are more critical than physical and financial assets as they are the ones who manage and sustain the growth of physical and financial assets of the company. Color Chips is well on its way in establishing an integrated system of workforce, which endeavors to develop the capability of its employees that clearly aligns with the business objectives and performance.

Further, we also encourage individual and team awards to sustain and institutionalize the various workforce practices. This helped in giving lots of encouragement to the workforce who have been striving hard to achieve various goals.
